SOME WISCONSIN POLITICS.

A gentleman well known in the political circles of the State, and who resides in Milwaukee, has written a letter to the Chicago Tribune on the Congressional prospects in the Second and Sixth Districts. These Districts are important political centres, and as one is represented by a Democrat—the notorious Gabe Bouck—and the other being very close, they are watched with considerable interest and no little solicitude, by the leaders of both parties. To regain the Sixth, and to hold the Second against the combined strength of the Democrats and the Greenbackers, is the business of the Republican party. Philetus Sawyer, one of the best men ever sent to Congress from Wisconsin, represented the Oshkosh district in Congress ten consecutive years. In 1872 he was elected for the fifth time by a majority of 3,415 over M. P. Lindsley. The next year Mr. Sawyer declined a re-election, and A. M. Kimball was nominated by the Republicans, and elected over Gabe Bouck by only 92 majority. Kimball was very unpopular even among the members of his own party, but he was renominated in 1876, the Democrats gave him Bouck again for an opponent, and Kimball was beaten by 2,776 majority. To wipe out this majority will require harmony among the Republicans of the District, and a strong candidate. The District is Republican, and can be carried, if the proper course be taken. Bouck did not win in 1876 of his own personal strength, but because the Republican candidate was unable to command the Republican vote. But to the Tribune article: The correspondent states that there is a strong movement on foot to make Mr. Sawyer take the field in order to render the defeat of Bouck certain. Sawyer became heartily sick of Congressional life, and when he left Congress on the 3d of March, 1875, he promised himself he would not return again, but the peculiar condition of things in his District, may possibly have some influence in making him yield to the powerful sentiment among his Republican friends in the Sixth. The correspondent says "the movement is about as agreeable to Gabe Bouck as an approaching cyclone would be to a man paddling across Lake Winnebago in a leaky boat." Should Mr. Sawyer accept a nomination, the movement would completely disarm the Democrats and insure Bouck's defeat. Mr. D. M. Kelley, of Green Bay, a young man of good ability and fine parts, popular and aspiring, has been spoken of as the Republican candidate for Congress. He has served two terms in the Legislature and is personally very strong. But the movement is to return Kelley to the Legislature, which can be done, and make the defeat of Bouck certain by the nomination of Sawyer for Congress. Whether or not this movement (to nominate Sawyer) will prove successful, it is hard to determine at the present time. If Mr. Sawyer will consent to sacrifice his personal interests for the good of the District, he will be elected by an overwhelming majority.

The Second District now represented by Hon. L. B. Caswell, will be the field of a hard fought battle this fall. For a long time it has been close, but at each Congressional election for many years, the Republicans have carried the day. When Mr. Caswell first ran in 1874, he was elected over A. G. Cook by 217 majority, and in 1876 over H. S. Orton by 328. But the Greenback element has increased since '76, which makes the District somewhat doubtful. Caswell, according to the Tribune correspondent, has not expressed an anxiety for a renomination, though it is generally conceded that he could be elected regardless of a coalition of the Democrats and Greenbackers; and it is further stated that Caswell will probably step aside, and that "Mr. Keyes will be the Republican candidate by common consent with a decidedly good prospect of being elected." How much confidence can be placed in these political prognostications can only be determined when the Congressional Conventions in the Districts are held.

Chicago is not a little excited over the Lagrange murder—a tragedy which seems to be very like the Mack murder in this county. Last week Mr. A. B. Clark, a well-to-do farmer living at Lagrange, near Chicago, was shot and instantly killed while he was at his barn. The hired man, named St. Peters, was arrested on suspicion of having committed the murder. It is charged that St. Peters and Mrs. Clark were on very intimate term, that she was an accessory, and that Clark was murdered for the purpose of getting him out of the way, that St. Peters and Mrs. Clark might marry. He says he had not been on the Clark place for three weeks, but two witnesses swear to seeing him on the day of the murder a short distance from Lagrange, and going in that direction. Clark had a large dog, inclined to be anything but gentle to strangers, even in the day time. This dog was in the barn the night of the murder, but was never heard to utter even a growl. It would appear from this that the person committing the crime must have been known to the animal. The pistol pawned by St. Peters has five barrels. When arrested, four cartridges were found in his possession; the fifth was missing. He says he threw it away in his cell at the station, but it could not be found. At the post mortem examination, the ball that inflicted the wound was discovered and found to be a pistol-ball exactly fitting the weapon pawned by St. Peters. These and other facts taken in connection with his conflicting stories when arrested, strongly point to him as the assassin.

The Democrats and the Greenbackers are "pooling their issues" in many Districts in the West for the purpose of drawing heavily from the Republicans. For instance, take the nomination of Giddings for Congress in the Fifth District, in this State. He has been a Republican, but the Democrats were actively engaged in getting him nominated for the reason that he has been a Republican, and would in all probability draw from his old party. This is a Democratic trick to weaken the Republican vote, and thus give additional strength to little Bragg. The Republicans of Wisconsin should not be deluded by such tricks. The highest political sentiment today is that expressed by the Republican party. It is the only sentiment which defends the Government, the business interests of the country, and the rights of all classes. In every Assembly and Senatorial District, in every county, and in every Congressional District, the Republicans will put in nomination good men who soundly represent these principles, so that there will be no occasion for a single Republican to go away from home for a candidate.

In the ranks of the Democratic party can be found men of all sorts of political creeds except that which defends the right of a Republican in the South to vote as he pleases, unmolested. Training with the Democrats are Greenbacks of the most radical school; men who believe in hard money; Communists who believe in tearing down the entire social, political, and financial system of the country; Confederates who still have faith in secession and who think Jeff. Davis a noble patriotic soul; labor reformers who want pay from the Government for standing idle; and tramps who hate honest toil and refuse to labor when good wages are offered.

It is believed that Robert T. Lincoln, of Chicago, son of President Lincoln, will be nominated for Congress in the First District of that State. The District is now represented by William Aldrich, formerly of this State, who is a Republican and a good member. Robert is very popular in Chicago, and should he be nominated will doubtless be elected. Politically he is not ambitious. He is a good lawyer, a quiet citizen, and bears the honor of being the son of the greatest and best man of modern times, with a manliness which commands universal respect.

The Washington National Republican of last Wednesday morning, says Mr. Williams this handsome compliment in speaking of his renomination: "The Hon. Charles G. Williams, of Wisconsin, has been renominated for Congress by the Republicans of the First District. The honor has been worthily bestowed, as Mr. Williams is among the most capable and eloquent defenders of the Republican faith in the present House. He is a faithful representative of the public interest, and intensely watchful for general welfare. His re-election is vouchsafed by a large majority."

North Carolina, strong in tar, turpentine, and Democracy, is said to be undergoing a sort of revolution, politically. With any kind of fair play, Republicanism would rise again and control the State which would be a good thing for the ballot and the taxpayers. The Democracy is becoming disintegrated, and should the Republicans be kept back by intimidations, the Nationals will loom up and will be strongly supported by the old Whig element.

The break which has just taken place between Ben Butler and Dennis Kearney will prevent these men from being nominated for President and Vice President by the Nationals. Kearney, the drayman and sand-lot orator says he won't disgrace himself by running for President on a ticket with Butler. Probably Dennis would like to have Sam Cary for his Vice President.

The Democratic Congressional Convention for this District, will meet at Elkhorn on Wednesday. It will be a second edition of the Greenback Convention on the first instant. It is hardly probable that the Democrats will have backbone enough to resist the temptation of forming a coalition with the Greenbackers.

Charles W. Angell, secretary of the Pullman Car Company, has absconded with $120,000 of the company's money. While fast living and extravagance had a good deal to do in bringing about the crime, yet it seems that it was somewhat of a deliberate scheme to steal the money.

In 1853 when the yellow fever raged in New Orleans from May to December, 7,970 persons died of the disease. The next highest number which died of the disease in one season, was 3,885 in 1858.

The Annual Examination for State Teachers' Certificates at Madison.

FROM MADISON.

Special Dispatch to the Janesville Gazette.

MADISON, Aug. 19.—The annual examination for State teachers' certificates closed Saturday night. The Board of Examiners for this year are Prof. Albert Salisbury, of Whitewater; Prof. Stephen D. Carpenter, of Madison, and Prof. George W. Peckham, of Milwaukee. Two kinds of certificates are issued by the Superintendent of Public Instruction to those who pass examination—the limited, or five years, and the unlimited or life. The candidates for the former are examined in the following studies: United States history, arithmetic, geography, civil government, algebra, phisology, reading, English grammar with analysis, penmanship, geometry, natural philosophy, orthography, orthoepy, English literature, theory of teaching, and rudiments of mental philosophy. The standing attained must average at least 70 out of a possible 100. For the unlimited certificate, in addition to those studies above mentioned, are geology general history, political economy, botany, and, and a more complete course in mental philosophy. The average standing for this grade must be at least 75 per cent. In addition to this examination, candidates must show evidence of successful teaching at least three terms for the limited, and nine terms for the untimited certificates.

The number of candidates this year was eighteen, six of whom were examined in the full course.

The following were the successful candidates for unlimited certificates: John W. Sercomb, of Milwaukee, Dwight Kinney, of Darlington; A. A, Miller, of Waukesha; and M. McMahon, of Kewaunee.

For limited certificates: W. L. Gordon, of Beloit, Miss Hattie L. Salisbury, of Whitewater, and Miss Mary Lantry, of Manitowoc. The highest average reached by any of the candidates was 85.2. The holders of these certificates are entitled to teach in any public school of the State, during the term mentioned in the certificate, without further examination.

As a matter of local interest I may say that one-half of the successful candidates of this year, obtained their education at Milton, Messrs. Kinney and Miller being graduates of the College, and Miss Salisbury a former student. C.

THE FRAUD.

A Potter Fraud Witness on the Rampage in the Astor House.

NEW YORK, August 18—About 9 o'clock this evening John A. Leete registered at the Astor House, and was assigned a room on the third floor. He appeared to be laboring under some excitement. About half an hour after going to his room the loud report of a pistol was heard to come from Leete's room, and the crashing of a bullet through the door, accompanied by loud cries from the room. Several officers were summoned, and they burst in the door, and immediately a bullet whizzed past them, and Leete slammed the door in their faces. Another attempt by the officers to get in was met by another bullet, but both shots fortunately missed. The officers then made a combined rush and overpowered Leete before he could again fire. Leete was a witness before the Potter investigating committee last week. He was terribly excited and said there was a conspiracy to kill him, and he meant to kill the first man who entered his room. He fired, he said, in self-defense, as he heard some one trying to enter his room. Leete was taken to the City Hall Police Station and locked up. He swore at every one and denounced all as part of a band of conspirators. In a conversation with a reporter he said he was satisfied he had been "shadowed" for days past by a fellow who wanted to put him out of the way on account of the testimony he gave before the Potter committee, as they fear he may tell some more. He says he carried a private memorandum book with him, containing some additional startling testimony, and it was the book they were after. He went in search of some one to protect him, and called this morning at the Sun office to see Mr. Gibson, but he was not there. He then got Colonel Pelton's address and also Manton Marble's. He took a street car, but The conductor took him beyond Gramercy Park, his destination, which confirmed his suspicions. A visit was paid Governor Tilden, but he was absent. Rosmore Hotel was next visited, and a glass of wine ordered, but refused. Leete then wrote the following: "I am pursued by assassins and poisoners, and cannot find my friend."

BULLDOZING.

It Has Been Adopted in Arkansas, as Well as Other Southern States.

WASHINGTON, August 18.—Democrats are already commencing to introduce the bulldozing tactics in the Southern States, and information is daily received at Republican headquarters here of their operations. One of the worst cases heard from is occurring in Arkansas. Phillips county, on a fair vote, will give 2,000 Republican majority. In 1876, the vote stood: Hayes, 2,867; Tilden 982. The county has been carried by the Republicans by from 2,000 to 2,500 majority ever since 1866, the year of reconstruction. The county officers, of course, are Republicans, good and true men, upon whom the charge of fraud has never been laid. The affairs of the county have been well managed, and there can be no cause of complaint upon that score. These were nearly if not all candidates for re election, or would have been if they lived in a county where a man could exercise the rights of a freeman without jeopardizing his life. About a month ago the Democrats commenced organizing militia companies, and their leaders boldly announced that they had made up their minds to have the county officers at all hazards. On account of the peace and quiet that had hitherto prevailed the Republicans thought these expressions and threats would end in talk, but their minds were soon disabused. The Democrats continued organizing rifle companies some of which were armed by the State authorities, and some furnished their own; and threats were constantly made that Republican candidates should not be permitted to make a canvass.

YELLOW FEVER

Still Spreading at New Orleans—The Frightful Condition of Affairs at Grenada.

NEW ORLEANS, August 18.—New cases, 15; deaths, 47.

NEW ORLEANS, August 18.—The Rev. J. K. Gutheim, Edwin I. Kursherdt, and other officers of the Hebrew Benevolent Association, make the following appeal: "Sickness, distress, and suffering among the poor are increasing daily. Our funds are nearly exhausted. In this sad calamity we deem it our melancholy duty to appeal to the sympathies of our brethren throughout the United States for speedy aid."

MEMPHIS, Tenn., Aug. 18—A special to the Avalanche from Grenada to-night says there have been sixty-five deaths to date; one hundred sick at present. New cases yesterday fifteen. People are dying to-day without an attendant. Relief is greatly needed.

Forty in a Duel.

Morristown (Tennessee) Gazette.

The famous duel in which forty or more gentlemen were engaged, in 1828, is still remembered in Natchez. Colonel James Bowie, the famous fighter and inventor of the knife which bears his name, used to spend a great deal of his time in that city. He was challenged by a gentleman from Alexandria, Louisiana, whose friends, to the number of forty or more, accompanied him to Natchez to see fair play, knowing that Bowie was a desperate man and had his own friends about him. All parties went upon the field. The combatants took their places in the centre, separated from their friends in the rear, or enough not to endanger them with their balls. Behold the battle array thus: Twenty armed Louisianians fifty yards behind their champion and his seconds and surgeon, and opposite them, as far behind Bowie and his seconds and surgeon, twenty armed Mississippians. Behold the hights of Natchez thronged with spectators, and a steamer in the river rounded to, its deck black with passengers watching with deep interest the scene.

The plan of fight was to exchange shots twice with pistols and to close with knives. Bowie being armed with his own terrible weapon. At the first fire both parties escaped. At the second the Louisianian was too quick, and took advantage of Bowie, who waited the word. At this Bowie's second cried "Foul play," and shot the Louisianan dead. The second of the latter instantly killed the slayer of his principal. Bowie drove his knife into this man. The surgeons now crossed blades, while, with loud cries, came on the two parties of friends, the light of battle in their eyes. In a moment the whole number was engaged in a fearless conflict. Dirks, pistols, and knives were used with fatal effect, until one party drove the other from the field. I do not know how many were killed and wounded in all, but it was a dreadful slaughter. Bowie fought like a lion, but fell covered with wounds. For months he lingered at the Mason House before he fully recovered.

Oneida Community Children.

T. R. Noyes, the physician of the Oneida Community, has prepared a report on the health of the children under his charge. He has confined his attention to the children born since 1869, at which date the Community, finding itself financially prosperous, determined to supply the deficiency caused by the normal death rate by raising children of its own. This it attempted to do in accordance with the principles of scientific stirpiculture. "It attempted, however, little further than laying a veto upon combinations for parentage which were obviously unfit, and even here it did not always succeed." So much for the method; now for the results. There have been born in the Community since September, 1869, fifty-five children. With one exception, all the children born have been not only viable (that is, capable of living), but free from constitutional defects. "I say viable, notwithstanding five cases of death at or near birth, because every one of these deaths depended directly upon causes due to the mother." Of the fifty who survived the perils of birth, all are now living. There has been no death in the children's department for eight years. The department includes seven children brought in by their parents in addition to the fifty born here. The Community numbers in all about 300 persons. According to the best tables of mortality, under the most favorable circumstances, the deaths among an equal number of children in the same period of time should have been sixteen instead of five. "Allowing three deaths as likely to have taken place if measles, hooping-cough, and scarlet-fever had invaded the children's department, the deaths under 10 years of age would amount to eight, the United States average being nearly sixteen.

"So much for statistics of mortality. Now as to sickness not terminating fatally. Of course it is not possible to use statistics for comparison here. All that is to be said is that serious sickness among the children born since 1869 has been unknown. One or two children were delicate and had convulsions while teething, and several were afflicted with diarrhea in summer. The only exception to general health among them has been one boy who was one of the cases alluded to in which medical protests as to conception were disregarded. This child is afflicted with lack of co-ordinating power over his muscles. He improves year by year, but will always be under size in weight and hight, and will probably exhibit involuntary muscular action. His mind is sound."

Stanley Matthews Tells How the Late Administration Paved the Way for Peace.

Interview in New York Tribune.

I never went to the White House for that purpose. One day when I called to talk with the President about the District Attorneyship of Kentucky, and had transacted my business and risen to go, General Grant asked me to be seated again and said he desired to speak with me about affairs in Louisiana. He then told me that he had concluded to modify the orders to General Augur so as to make it his duty simply to preserve peace. I told him that this was a very important step, and asked him if he understood what the full effect of such a change of orders would be. He said he did; that while General Augur's duty was then to preserve the statu quo (I remember I was surprised to hear him use that expression) he would subsequently be expected to keep the peace. I then said to the President: "Suppose the Nicholls government, after this, should by peaceable means proceed to establish its officers in different parts of the State and to supplant Packard, what then?" "That," replied the President, "would be none of my business. If Nicholls can get possession of the State government by peaceable means, let him do so." General Grant then said that there was no secret about the matter, and he expressly authorized me to inform the members of the Louisiana delegation. I went to the Capitol, and meeting Messrs. Ellis and Levy told them what the President had said to me. I put it in writing because I wanted them to understand that the whole Republican party as represented by its President, General Grant, was committed to the policy which we expected Hayes to pursue.

The Butler-Kearney Interview.

From the Reno (Nevada) Gazette.

Benny Butler and Denny Kearney have interviewed each other and to the following effect:

Kearney. Bin, are ye a murderin thafe o' the wurruld, or are ye a political dhrayman?

Butler. Denny, I lay my hand upon the heart of the great Essex statesman and affirm that I have been compelled to haul more heavy loads in politics than anybody. I am a truckler.

K. Bin, d'ye belave in banks?

B. Not any, Dennis, save the one which holds my small savings. People are making money out of banks here, and we must stop it.

K. Whoop, the hell-bound villians, let me at 'em.

B. I want to be Governor—

(Enter Mrs. Kearney.) Diuny, dear, did you see anything o' the soup ladle?

Butler (promptly rising), Madame, if you suspect the great Essex statesman you may search him.

After quiet is restored Denny and Benny unite in a carnival, singing,

"Oh that will be joyful,
When draymen work no more."

A Stock Gambler's Lucky Hit.

From the New York Sun.

Mr. James R. Keene must have made about $400,000 as a bear in the Wisconsin stocks last week. When he entered upon the bear campaign he promised Mrs. Keene to give her ten per cent. of his profits, and a few days ago he is said to have presented the lady with a set of diamonds worth $40,000.

CATARRH

Sneezing Catarrh, Chronic Catarrh, Ulcerative Catarrh, permanently cured by

SANFORD'S RADICAL CURE.

SANFORD'S RADICAL CURE FOR CATARRH is a safe, certain, and permanent cure for Catarrh of every form, and is the most perfect remedy ever devised. It is purely a vegetable distillation, and is applied locally by insufflation, and constitutionally by internal administration. Locally applied, *relief is instantaneous.* It soothes, heals, and cleanses the nasal passages of every feeling of heaviness, obstruction, dulness, or dizziness. Constitutionally administered it renovates the blood, purifies it of the acid poison with which it is always charged in Catarrh, stimulates the stomach, liver, and kidneys, perfects digestion, makes new blood, and permits the formation of sound, healthy tissue, and finally obtains complete control over the disease. The remarkable curative powers, over all other remedies utterly fail, of SANFORD'S RADICAL CURE, are attested by thousands who gratefully recommend it to fellow-sufferers. No statement is made regarding it that cannot be substantiated by the most respectable and reliable references. It is a great and good medicine, and worthy all confidence. Each package contains a Treatise on Catarrh, and Dr. Sanford's Improved Inhaling Tube, and full directions for its use in all cases. Price $1.

An Enthusiastic Friend of Sanford's Radical Cure.

McIlATTON, GRANT & BOWEN'S FIRE AND MARINE INSURANCE AGENCY,
225 Pine Street, St. Louis, Mo., Feb. 1, 1877.

A. A. MELLIER, Washington Av., City.—Dear Mellier: I have for some years been troubled with Catarrh, and for the past two years have suffered seriously with it. Noticing your advertisement of SANFORD'S REMEDY (RADICAL CURE), I decided to try it. I have used only two bottles, and as a result I feel so much relieved that I presume on our personal relations and write this to you and ask that you take some measures to get it more prominently before the public, that others may have such relief as I have. I have recommended it to quite a number of my friends, all of whom have expressed to me their high estimate of its value and good effects with them.

I really think it particularly adapted to wants of St. Louis people, and they all ought to know of it, and those who need it should try it. I will risk the assertion that 1000 1 oz. vials (as a sample) to be given away will sell as many bottles.

Try some plan. Let the people have it; they need it. I believe I could sell 5000 bottles myself—of course you could largely increase this number. Why not try it? Yours truly, WM. BOWEN.

Sold by all Wholesale and Retail Druggists and Dealers in Medicine throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

LAME BACK AND RHEUMATISM

CURED BY

COLLINS' VOLTAIC PLASTERS

Messrs. Weeks & Potter: Gentlemen,—One year ago I was seized with a severe attack of Rheumatism in my right hip, to which I was subject. I tried the various liniments and rheumatic cures, but without the least benefit, when my son, a druggist, suggested one of your COLLINS' VOLTAIC PLASTERS. The effect was almost magical, for, to my grateful surprise, I was almost immediately well again, and was able to work upon my farm as usual, whereas, before the application of the Plaster, I could do nothing, and every step gave me pain. A few weeks since, one year from the first attack, the disease returned, but I am happy to say the second Plaster proved as efficacious as the first, and I am now well. My wife wishes me to add that one Plaster has cured her of a very lame back. We think there is nothing in the world of remedies that can compare with the COLLINS' VOLTAIC PLASTERS for Rheumatism and Lame Back, and cheerfully recommend them to the suffering. Yours very respectfully,

OBLAND, ME., June 6, 1876. ROBERT COTTON.

NOT A QUACK NOSTRUM.

Gentlemen,—I hereby certify that for several years past I have used the VOLTAIC PLASTERS in my practice, and have never known them to fail in affording speedy relief in those cases for which they are recommended. They are not a quack nostrum, but a remedial agent of great value. Very truly yours, W. C. COLLINS, M. D.

BUCKSPORT, ME., May 27, 1874.

PRICE 25 CENTS.

Be careful to obtain COLLINS' VOLTAIC PLASTER, a combination of Electric and Voltaic Plates, with a highly Medicated Plaster, as seen in the above cut. Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

A Publisher's Interesting Story.

Hartford Correspondence Springfield Republican.

It is singular how different people will sometimes claim the authorship of the same book, especially if it is a successful one. The two most striking incidents of this, in my experience, were in the case of the two poems, "Nothing to Wear," and "Betsy and I Are Out." The first poem, it is well known, originally appeared in Harper's Weekly. I picked up a paper containing it at a friend's house soon after it was published, and was amusing myself by illustrating the poem with a pencil on the margin of the paper, when a lady friend, looking over my shoulder, said: "You ought to publish an illustrated edition of that poem." The idea struck me favorably, and, after thinking of it over night, I decided to do so, and wrote by friend Gus Hoppin to draw the requisite pictures at once. [Your correspondent has always understood that a famous New York belle allowed Mr. Hoppin to draw her face for that of Flora McFlimsey, and that a brother of the artist was delineated as the hero of the poem.] As soon as I got the pictures our firm published a neat little muslin-covered edition of the book, which sold for 50 cents. We had sold a few editions when a Miss Peck, a clergyman's daughter from Norwich, Conn., came into the store and claimed the authorship, hitherto attributed to William Allen Butler. Her story was that she had dropped the manuscript of the first part of the poem in a New York omnibus, and knew nothing of its whereabouts; she saw her poem, much enlarged and expanded it is true, but embracing all her lines in Harper's Weekly. The lady's appearance was so much in her favor that we told her if she could produce evidence of sufficient literary ability we would pay her for her production and compensate her therewith for the poem. Ere long, she brought us a good novel, and we paid her $1,000 as compensation for both works. We afterward published a second novel for her, and the lady was at work upon the third when her death occurred, not long after she had made a happy marriage. Mr. Butler never admitted the lady's claim to any share of the authorship, and his character and high ability always made the matter a mystery. He subsequently published "Two Millions" and a volume of selected poems, which we shall probably publish for him hereafter. The controversy as to the true authorship of "Nothing to Wear" had much to do with its sale, which was very large. The other case of contested authorship was also over a poem published in Harper's although it first saw the light in the Toledo Blade. That was the famous "Betsy and I Are Out," which claimed by Will Carleton, a young Western poet, whose name was attached to it in Harper's, and by Mrs. Emerson. The poem had appeared in Harper's when Mrs. Emerson called upon us and asserted that the poem was hers, *verbatim et literatim*; that it was written by her at her home in Maine, grew out of actual incidents in the life of her Uncle Ellabread Aunt Betsey, who bore the real Christian names of the hero and heroine of the poem and that it had been repeatedly read aloud by her from her own manuscript to neighbors and friends, at whose request she had made and given away copies thereof. Her theory was that one of these stray copies got into the hands of Will Carleton, who sent it to the Toledo Blade, very probably without claiming the authorship originally, and that the publishers of the Blade might innocently have attached his name, as he was a writer therefor. Harper's copied the poem, and Will Carleton, finding himself famous, went to work and produced a volume of "Farm Ballads" of similar style and meter, which he sold by thousands, including the disputed poem in his volume. We sent to Maine and having verified Mrs. Emerson's statements published a volume of poems for her entitled, "A Thanksgiving Story," including "Betsy and I Are Out" which has sold tolerably well.

Scientific Men Sold.

Four or five city hall officials were sitting on the steps on Woodward avenue side Saturday afternoon, discussing politics and the weather, when a smallish man, seeming to be in considerable distress, approached them and inquired:

"Gentlemen, is there a scientific man among you?"

"Certainly there is," they replied in a chorus.

"And you must be familiar with the laws governing storms?"

"We are," was the prompt answer.

"Well then," continued the stranger, "I wish to relate what may seem like a singular occurrence. I live on Division street, and, though it began raining at midnight the other night, and continued for twenty-four hours, not a single drop of water fell upon my garden."

"Is it possible," gasped one after the other.

"It is the solemn truth gentlemen, and I'd like to know by what law of nature you can account for it. It was a long continued, drenching storm, yet not one drop fell upon my garden."

There wasn't even room for a suggestion. The crowd was astonished and silent. After a long minute one of the gentlemen turned to the stranger and asked:

"You must have a theory, haven't you?"

"I have."

"And what is it?"

"My theory, gentlemen, is that I rent rooms on the third floor, and had no garden for the rain to fall on."

Five men rose up in chorus, brushed off their coat tails, and followed each other into the hall in Indian file.—*Detroit Free Press.*

VEGETINE

I will try Vegetine.
He did,
AND WAS CURED.

DELAWARE, O., Feb. 16, 1877.

MR. H R STEVENS:—

Dear Sir,—I wish to give you this testimony, that you may know, and let others know, what Vegetine has done for me. About two years ago a small sore came on my leg; it soon became a large Ulcer, so troublesome that I consulted the doctor, but I got no relief, growing worse from day to day. I suffered terribly; I could not rest day or night; I was so reduced my friends thought I would never recover. I consulted a doctor at Columbus. I followed his advice; it did no good. I can truly say I was discouraged. At this time I was looking over my newspaper; I saw your advertisement of Vegetine, the "Great Blood Purifier" for cleansing the blood from all impurities, curing Humors, Ulcers, &c. I said to my family, I will try some of the Vegetine. Before I had used the first bottle I began to feel better. I made up my mind I had got the right medicine at last. I could now sleep well nights. I continued taking the Vegetine. I took thirteen bottles. My health is good. The Ulcer is gone, and I am able to attend to business. I paid about four hundred dollars for medicine and doctors before I bought the Vegetine. I have recommended Vegetine to others with good success. I always keep a bottle of it in the house now. It is a most excellent medicine. Very respectfully yours,

F. ANTHONI.

Mr. Anthoni is one of the pioneers of Delaware, Ohio. He settled here in 1834. He is a wealthy gentleman, of the firm of F Anthoni & Sons. Mr Anthoni is extensively known, especially among the Germans. He is well known in Cincinnati. He is respected by all.

IMPURE BLOOD—In morbid conditions of the blood are many diseases; such as salt-rheum, ring-worm, boils, carbuncles, sores, ulcers and pimples. In this condition of the blood try the VEGETINE, and cure these affections. As a blood purifier it has no equal. Its effects are wonderful.

VEGETINE

Cured Her.

DORCHESTER, MASS., June 11

DR STEVENS:—

Dear Sir,—I feel it my duty to say one word in regard to the great benefit I have received from the use of one of the greatest wonders of the world; it is your Vegetine. I have been one of the greatest sufferers for the last eight years that ever could be living. I do sincerely thank my God and your Vegetine for the relief I have got. The *Rheumatism* has pained me to such an extent that my feet broke out in sores. For the last three years I have not been able to walk; now I can walk and sleep, and do my work as well as ever I did, and I must say I owe it all to your blood purifier, Vegetine.

MARGERY WELLS.

VEGETINE—The great success of the VEGETINE as a cleanser and purifier of the blood is shown beyond a doubt by the great numbers who have taken it, and received immediate relief, with such remarkable cures.

VEGETINE

Is better than any MEDICINE.

HENDERSON, Ky, Dec., 1877.

I have used H. R. Stevens' Vegetine, and like it better than any medicine I have used for purifying the blood. One bottle of Vegetine accomplished more good than all other medicines I have taken. THOS. LYNE,
Henderson Ky.

VEGETINE is composed of Roots, Barks, and Herbs. It is very pleasant to take; every child likes it.

—Major F. F. Stevens returned Saturday evening from a nine week's stay at Waukesha and Palmyra. We are glad to learn that his health has improved during his absence.

—Rev. Henry Faville, of Delavan, preached yesterday in Court street church, his morning theme being, "Jacob and Esau," and his evening talk being about "Spiritual Worship."

—Robert B. Hamilton has been been tendered a position as telegrapher in Chicago, and went there to-day to commence work. He has been in the telegraph office here for a year past.

—Trinity Episcopal church choir will hereafter be taken charge of by Mrs. St. John. She is every way capable to fill the position, and under her management the choir will doubtless be greatly improved.

—Mr. George Fellows has just finished threshing winter wheat. The yield from eleven acres was 448 bushels. He had also six acres of oats that yielded sixty-one bushels to the acre. Who says the crops are a failure?

—There are so many of the Janesville Guards who want to join the Miwaukee excursion next Thursday, that it has been decided to have a drill to-night instead of the regular drill Thursday night, so that all can go who desire.

—Kate Lynch, the well known and irrepressible Beloit female, was up again before Justice Prichard this morning and sentenced to three days in jail for drunkenness. She would have received a longer sentence but she promised to go home as soon as released.

—The Janesville Veterans met Saturday evening and fifty-six were mustered in. Another meeting will be held this evening when the required number, sixty-five, will be more then filled. Some of those who have joined the company forgot to turn out Saturday night. Their memory will probably be better to-night.

—Mrs. Wood an old resident of the town of Center, and who has been recently living in Sparta, died in the latter place Saturday, and her remains arrived on this afternoons train, being brought hither by her daughter, Mrs. Strasberger, of this city. The remains were taken to Center for burial. The deceased and her husband, who died several years ago, were early settlers in this county, and many friends of the family will be saddened on learning of Mrs. Wood's death.

—Remember that there will be a grand good chance to go to Milwaukee and back, Thursday, August 22, at which time the Knights of Pythias and the Bower City band will head an excursion to that city. There will be about eight hours in which to see Milwaukee and to watch the ball players, or go on a steamboat out into the lake. The fare has been reduced to $1.50 a ticket, and every ticket entitles the holder to a seat coming and going. The excursion will be one of the most enjoyable which has yet gone forth from this city, and many will doubtless improve the opportunity thus afforded. Remember the day, August 22.

THE WEATHER.

Yesterday at noon the thermometer stood at 86 degrees above. Cloudy and sultry. To-day the thermometer at 7 o'clock stood at 70 degrees above and at 2 o'clock at 85 degrees above. Murky. One year ago to-day at noon the thermometer stood at 87 degrees above.

The indications to-day are, for the upper lake region partly cloudy weather, occasional rain, variable winds, and nearly stationary temperature and pressure.

STRAPS AND STRIPES.

The Militiamen of Janesville from 1855 to 1878.

How They have Fallen into Line, and How They have Fallen Out Again.

The Various Organizations and Their Officers.

The military fever is abroad in the land, and has already struck Janesville. The civil war has been now so long a thing of the past that the feathers and tinsel, the beat of the drum, the shriek of the fife, and the smell of powder have regained that romantic tinge which was so effectually destroyed by months upon months of actual conflict, and camp-life with hard-tack food. The occasional raid of a few beggarly but malicious tramps, and the possibility ever existing of some more serious out-break of other disorderly elements of society, have furnished reasons enough why the city should keep itself in readiness to preserve peace within its own limits, or to aid the state when needed.

The militia fever first struck Janesville in 1855 and a company was at that time organized which was duly christened

THE JANESVILLE CITY GUARDS.

The Company seems to have had a decided *penchant* for titular honors and provided itself with a colonel, an extra lieutenant, and enough other official positions to provide for the wants of most of its members. Its first election took place in November, 1855, at which time the following were chosen as officers:

Colonel—George S. Dodge.
Captain—B. F. Pixley.
1st Lieutenant—N. Harsh.
2d Lieutenant—W. L. Mitchell.
3d Lieutenant—E. Tallman.
Sergeants—J. R. Beale, Charles D. Bacon, James B. Dimock, William Parker.
Corporals—F. Strunk, William Addy, William Shelton, John Day.

The uniforms adopted by the company were made of grey trimmed with black. Arms were procured from the State and drill was kept up for some time. There were some changes in the roll of officers and Captain Gillett, was in command most of the time until the enthusiasm died out, and the ranks became broken and the arms returned to the State. The drill room for some time was where Prof. Haire's school is now located in Mitchell's block, and the fun and frolic of those days will be long remembered by all who participated in them. The drum, whose taps inspire, the steady "left, left," of the rank and file, afterwards sounded the long roll in the active service and was carried safely through some of the heaviest fights of the war, and many of those whose feet had kept step to its beat in time of peace, were afterwards found standing nobly in the great army of the North.

The military fever at the break-up of the Janesville City Guards, disappeared until shortly before it was needed to warm men into actual fighting condition. In March 1861, was organized a company of militia known as the

JANESVILLE LIGHT GUARDS.

The civil officers of the company were:
President—H. A. Patterson.
Secretary—J. D. King.
Treasurer—Levi Alden.

The military officers elected were as follows at the start-out:
Captain—H. A. Patterson.
1st Lieutenant—H. M. Wheeler.
2d Lieutenant—George A. Young.
3d Lieutenant—H. R. Clum.
4th Lieutenant—James Mills.
Sergeants—Ellis Doty, W. H. Holt, S. R. Witt, H. C. Hern, E. P. Mills.
Corporals—A. W. Hathaway, L. W. Smith, John A. White, N. W. Proper.

A. B. McLean served for some time as First Lieutenant of this company and as drill-master, and took a prominent part in all the doings of the company. He afterwards went into active service as First Lieutenant of Company D, Second Regiment.

The company drilled for some time at the Court Room, and afterwards responded to the call for troups and concluded no longer to remain as militiamen but to enter the ranks of the Fifth Wisconsin Volunteers, in which they became Company E. with H. M. Wheeler, as Captain. Their adopted motto was "Deeds, not Words," and their record was a practical carrying out of that sentiment.

THE JANESVILLE CITY ZOUAVES.

In June 1861 was organized a company of young men, mostly beardless, having all the enthusiasm and vigor of youth. They started out under favorable auspices, and were from the start favorites in the public mind. They too were organized as a militia company, and at their first election chose the following officers:

Captain—George G. Williams.
1st Lieutenant—J. L. Murray.
2d Lieutenant—George Brown.
3d Lieutenant—J. W. Hall.
Sergeants—E. Woodman, G. F. True, John Hutson, Wm. M. Burns.
Corporals—Hiram Nesh, H. B. Williams, Andrew Palmer, Jr., W. R. Graham.

Shortly afterwards Ed. E. Woodman was chosen as Captain, and continued in that position until the disbandment of the company after the war. The company drilled in the old Hyatt horse dining room. Many were the good times which this company enjoyed. On one occasion they went to Monroe, in acceptance of an invitation from the Mayor and Common Council of that city to help them celebrate a festive occasion. But the time came when men at home had to be given up for work in the field, and the boys went forth as Company B, of the Thirteenth regiment.

Several companies were organized here during the war, but only for war purposes, and as soon as they effected an organization were mustered in and started forth for business. There was, however, a quasi militia company here during the war, it being known as

THE HOME GUARDS.

A large number of citizens joined in this, which was merely a class for drill. The men met frequently and were put through the military tactics by Col. White, an excellent drill master. It was deemed advisable to keep a body of men on hand, who were ready to fall into line in any emergency, and who would be already drilled. This organization and drill was kept up for months, some stepping out to join the active forces, and the vacancies being filled by others, hence this organization was not strictly perfected as a regular militia.

A SECTION OF ARTILLERY.

To further provide for the protection of the city and State a small number of patriotic citizens drilled themselves as artillerymen and organized under Dr. R. B. Treat, as Lieutenant. They were furnished one gun by the State, and the organization and drill were kept up for some time.

The war with all its activities and hardships seemed to kill out the desire for home drills and parades, and the fife and drum were placed in the corner to slumber beside the rusty bayonets and faded shoulder straps, until of late the military enthusiasm has broken out again, and now the city has two companies, of which they may rightly feel proud, and for which they may have need ere many months roll themselves up into years. Both organizations start out under more favorable auspices than any which have preceded them, and will doubtless prove themselves efficient protectors of the public peace and welfare.

THE DEMOCRACY.

Delegates Chosen for the Congressional Convention at Elkhorn. A Kick Made Against Accepting Parker.

The usual instructions were given for delegates to appoint substitutes in case they could not serve.

A resolution was introduced instructing the delegates to vote for the nomination of Charles Parker, of Beloit, the Greenback nominee, but it was loudly voted down, only one voice being heard in the affirmative.

The Democratic Convention of the First Assembly District met at Footville last Saturday afternoon and chose as delegates to the Congressional convention, Aaron Broughton, of Magnolia, and Hamilton Reiggart, of Beloit. No instructions were given them.

SECOND ASSEMBLY DISTRICT.

John Winans and David Davies were chosen delegates to the Congressional Convention, with power to chose substitutes.

SHIMEAL HELD FOR TRIAL.

The long drawn out examination of the case of the State versus Jerome Shimeal was brought to a close Saturday afternoon, after having been argued all day. It was claimed on the part of the prosecution that Shimeal was not a regularly appointed constable, though he might have thought himself to be such; that the attempted arrest of the old man Fonda was for the purpose of satisfying an old neighborhood feud rather than for the sake of simple justice. The warrant which Shimeal was trying to serve was for an alleged assault made upon a boy almost a year ago, and no steps were taken to get a warrant until after said boy had gone to live with the Shimeals. It was claimed that Shimeal went with a posse of others to effect the old man's arrest, and that Shimeal shot the old man without any provocation or cause, and that even if there had been no personal spite back of the attempted arrest, even then there would have been no occasion for shooting down a man who had lived there for years, and who would not run away on account of a simple charge of assault and battery.

The defense claimed that though there might be some technical flaws in Shimeal's appointment as constable, yet as he honestly believed himself rightly appointed, as he had taken the oath of office, filed his bonds, and been known and recognized as an officer, and as old man Fonda had heard that he was an officer, and that he had a warrant for him, he was in fact a constable, and was acting as such. It was claimed that Fonda had threatened to shoot Shimeal, and that when he tried to arrest Fonda, the latter pulled a revolver and tried to fire it, and that Shimeal shot in self-protection and in the pursuit of duty.

The examination brought out a large amount of contradictory testimony, making the case in some particulars difficult to justly determine. Justice Balch concluded to hold Shimeal for trial before the Circuit Court in the sum of $600. Bail was promptly furnished, and work will now be generally resumed in Shopiere, there being no further proceedings for the present to draw the population hither.

THE LOCUSTS ARE COMING.

Seven years ago the locusts caused sad havoc among the shade trees of this city. They have now put in another appearance, though not yet in very large numbers, but they are thought to be only advance and advertising agents for a large troupe which will soon appear. They have been known as the seven-year locusts, and it seems from present appearances that they are rightly named. There seems to be no way to suppress them except to catch them one by one and cremate them. It is to be hoped that they will not cause as great a havoc as when they visited the city before. At present they are not very numerous, but those familiar with them pronounce them of the same kind as those which made such a general raid on the trees years ago.

Liver is King.

The Liver is the imperial organ of the whole human system, as it controls the life, health and happiness of man. When it is disturbed in its proper action, all kinds of ailments are the natural result. The digestion of food, the movements of the heart and blood, the action of the brain and nervous system, are all immediately connected with the workings of the Liver. It has been successfully proved that Green's August Flower is unequalled in curing all persons afflicted with Dyspepsia or Liver Complaint, and all the numerous symptoms that result from an unhealthy condition of the Liver and Stomach.
